ANNUAL REPORTS

Bennington, New Hampshire

1974

THEODORE AUCELLA

We have lost a friend and the community has lost a man who devoted much time in an effort to help his fellow townsmen. "Ted" had served as a Representative at the State House, had been a former Member of the local School Board and, at the time of his death, was Chairman of the Board of Selectmen.

With great appreciation and fond recollections from all of those who knew and served with him.

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Bennington in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Bennington on Tuesday, the 4th of March next, at ten of the clock in the forenoon, to act upon the following subjects:

Article 1. To choose all necessary Town Officers for the year ensuing.

Article 2. To see what sum of money the Town will raise and appropriate for highways and bridges.

Article 3. To see if the Town will vote to accept State Aid for Class V roads and raise and appropriate money for the same. The Town must raise \$304.18 and the State will contribute \$2,027.87.

Article 4. To see if the Town will vote to authorize the Selectmen to borrow such sums of money as may be necessary in anticipation of taxes.

Article 5. To see what action the Town will take in regard to real estate purchased by the Town for non-payment of taxes.

Article 6. To see if the Town will vote to accept legacies and gifts to the Town in trust or otherwise by any individual or individuals, or take any other action relating thereto.

Article 7. To see if the Town will vote to transfer any balance in the Fire Department appropriation to a Capital Reserve Fund to be used toward the building of a new fire station.

Article 8. To see if the Town will raise and appropriate the sum of \$5,000.00 to establish a Capital Reserve Fund to finance the acquisition of a new fire truck or to take any other action related thereto. (Proposed by Fire Department-Budget Committee-Selectmen.)

Article 9. To see if the Town will raise and appropriate the sum of \$400.00 for a donation to the Hillsboro Rescue Squad in appreciation of their service to the community during the past year. (Proposed by Selectmen-Budget Committee.)

Article 10. To see if the Town will raise and appropriate the sum of \$335.00 for the support of the Monadnock Family and Mental Health Service in Keene. (Proposed by Selectmen-Budget Committee.)

Article 11. To see if the Town will raise and appropriate the sum of \$736.00 to support the services of the Monadnock Community Visiting Nurses Association, Inc. (Proposed by Selectmen-Budget Committee.)

The Selectmen and Budget Committee will recommend and discuss with the townspeople the wisdom of including Warrant Items 9, 10 and 11 as part of the regular budget in the future.

Article 12. To see if the Town will vote to authorize withdrawal from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972 for use as set-offs against budget appropriations in the amount indicated; and further to authorize the Selectmen to make pro-rata reduction in the amounts if estimated entitlements are reduced, or take any other action hereon:

Appropriation	Estimated Amount
Police Department	\$ 3,500
Fire Department	2,500
Street Lighting	2,500
Landfill Facility	2,000
Parks & Playground	2,000
	<hr/>
	\$12,500

Article 13. To see if the Town will vote to authorize the Selectmen to apply for, negotiate for, contract for, accept and to do all other things necessary to obtain such Federal, State or other assistance (financial or otherwise) as may be available relative to disasters (natural or otherwise), or take any other action relating thereto. (Proposed by Selectmen.)

Article 14. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 for the continuation of a Capital Reserve Fund to finance the acquisition of a tax map or take any other action relating thereto. (Proposed by the Budget Committee-Selectmen.)

Article 15. To see if the Town will vote to adopt an ordinance requiring building permits in areas located in a flood plain as designated by the Federal Insurance Administration, and to authorize the Selectmen to appoint a building inspector to administer said ordinance.

ORDINANCE

No building or structure shall be constructed within areas located in a flood plain as designated by the Federal Insurance Administration and no structural changes or additions at a cost of more than \$1,000 to existing buildings within such areas shall be undertaken unless the owner or his designee shall file an application in writing with the Building Inspector or his designee for a building permit.

Such application shall set forth the following information:

1. The name of the owner of the property and the location of the property.
2. A plot plan showing the dimensions of the property.
3. The location of the proposed building or structure on said property.
4. The size and area of the proposed building or structure.
5. The proposed use of the property.

Any proposed new construction or substantial improvement (including pre-fabricated and mobile homes) must (i) be designed (or modified) and anchored to prevent flotation, collapse, or lateral movement of the structure, (ii) use construction materials and utility equipment that are resistant to flood damage, and (iii) use construction methods and practices that will minimize flood damage.

In the event that the Building Inspector shall fail or refuse to grant a permit within seven (7) days of the filing of said application, the applicant may appeal from such failure or refusal to the Board of Appeals. In passing on such appeal the Board of Appeals may make any reasonable exception and shall have the power to authorize or issue a permit subject to such conditions as it may impose, where the issuance of such permit would not tend to defeat the purposes of the federal flood insurance program.

Whoever violates the provisions of this ordinance may be fined for each offense a sum not to exceed \$10.00. (Each day that said violation continued shall be deemed to be a separate offense.)

(Proposed by Selectmen-Budget Committee-Planning Board)

Article 16. To see if the Town will vote to adopt a resolution indicating the inten-

tion of the Town (1) to comply with the National Flood Insurance Act of 1968 as amended, and (2) to vest in the Planning Board and Building Inspector the responsibility and authority to implement the requirements of the flood insurance program.

(Necessary action indicated by the sample resolution, approved by Town Counsel, which is printed immediately following the report by the Planning Board in the Town Report.)

Article 17. To see if the Town will vote to accept the report of the Recycling Committee (printed elsewhere in the Town Report) and to continue the Committee with authority to expand its study to include suitable representatives from Antrim and Francetown with a view to possible joint recommendation for further action. (Proposed by Recycling Committee-Selectmen.)

Article 18. To see if the town will raise and appropriate the sum of \$6,000.00 to extend a six inch water main 500 feet long on the South Bennington Road and to authorize the selectmen to borrow to carry out this article.

(Proposed by Water Commissioners-Selectmen-Budget Committee)

Article 19. To see if the Town will raise and appropriate up to \$1,000.00 to paint the front of the Town Hall. (Proposed by Selectmen.)

Article 20. To see if the Town will raise and appropriate the sum of \$700.00 to replace the lighting fixtures in the ceiling of the Town Hall Auditorium. (Proposed by Selectmen.)

Article 21. To see what action the town will take in regard to improving Gillis Hill Road and raise and appropriate money for same. (By request.)

Article 22. To see if the Town will vote to appropriate a sum of money to either (1) repair the bridge crossing the Contoocook River between Antrim and North Bennington, known as the Iron Bridge, so that the same will be safe for public travel (carrying capacity of at least six tons), or (2) to replace said bridge; determine whether any appropriation under this Article shall be raised by borrowing or otherwise; or take any other action relating thereto. (Article inserted by order of the Board of Commissioners of the County of Hillsborough.)

Article 23. To see if the Town will authorize a five year accelerated TRA program of road improvement in North Bennington, raise and appropriate money for the same and authorize the Selectmen to borrow to carry out this article. (Proposed by Selectmen-Budget Committee.)

Article 24. To see if the Town will vote to take up all Warrant items for consideration and action at 7:30 P.M. on the Thursday evening immediately following the annual March Town Meeting Day. (Proposed by Selectmen-Moderator.)

Article 25. To see what sum of money the Town will raise and appropriate for Statutory requirements and to carry the articles and appropriations of the School District into effect.

To transact any other business that may legally come before this meeting.

Given under our hands and seal this thirteenth day of February, in the year of our Lord nineteen hundred and seventy-five.

A GRAPHIC EXPLANATION OF THE SOURCE AND USE OF THE TOWN'S TAX DOLLAR

REPORT OF THE SELECTMEN

North Bennington Bridge

The so-called "Iron Bridge" in North Bennington has developed into an unexpectedly major problem for both the towns of Bennington and Antrim. Because this bridge spans the Contoocook River which serves as a town boundary line between Antrim and Bennington at this point, the bridge is a joint responsibility.

Early in the spring of 1974, the Selectmen became aware of a major maintenance problem related to the bridge and arranged to meet with the Selectmen of Antrim in Antrim in early May. After the Road Agents of both towns had reviewed the bridge, it was agreed that substantial maintenance work in terms of re-planking, replacing rusted girders, substantial repairs to the abutments, etc., would involve a project substantially larger than had been anticipated. It was agreed by the Selectmen of both towns that Warrant items for the 1975 Town Meetings would be needed in order to appropriate sufficient funds to make what was felt to be the necessary repairs.

In early August there was an accident at the bridge and a car broke through the flooring. After consultation, the Selectmen of both towns agreed that the bridge should be closed as unsafe. Unfortunately, the summer road maintenance budget in Bennington had been substantially expended by that time and funds were not available to make emergency repairs.

Shortly after the closing of the bridge, a group of residents of the area came to see the Selectmen and pressed strongly for prompt and complete repairs. The Selectmen promised that a suitable item would be presented in the 1975 Warrant and that they had every reason to believe that Antrim would do the same. At that time it was assumed that the repair costs would be not too substantial.

On September 17th the Selectmen received a "notice of insufficiency" which had been filed by three taxpayers. The Selectmen acknowledged the receipt directly to the petitioners and suggested that they would have to obtain more precise estimates of the repair costs involved as well as possible alternate approaches to the problem, such as major upgrading of the North Bennington Road. In addition, they would have to meet with the Antrim Selectmen and suggested a meeting with the petitioners and other interested citizens by mid-October. Later a meeting date of October 17th was proposed. In the meantime, the Selectmen contacted the State and arranged for an engineering inspection and a recommendation related to the bridge.

They also arranged to meet with the Antrim Selectmen on October 7th. Unfortunately, the petitioners did not choose to wait for a further meeting and the Board received a notification dated October 7th from the County Commissioners that a "notice of insufficiency" had been filed with the County Commissioners. At this point the matter was out of the hands of the Board and since that time has been up to the County Commissioners for decision. The County Commissioners met with the Boards of both towns and interested parties at the bridge on November 8th. At that meeting representatives of the State Highway Department were present together with bridge inspectors. The State engineers explained to all of the parties involved that we had on our hands a much larger problem than we had realized. They insist that the minimum required to make the bridge safe for six tons would involve repairs costing approximately \$40,000 and strongly recommended an alternative solution of the construction of a completely new bridge under the State Town Bridge Aid Program which would amount to a net cost of \$140,000 to be financed by both towns.

The Bennington Selectmen had felt that an alternative approach to the problem involving a major upgrading of the North Bennington Road should have been reviewed with the residents of the area, but never had an opportunity to discuss this option. A letter from the County Commissioners dated December 31st ordered the Selectmen of each of the two towns to present to the voters at the next Town Meeting a Warrant article proposing the suggested repair or replacement of this bridge. At a meeting with the Antrim Selectmen it was agreed that this order would be obeyed and that Town Counsel for each of the two towns would jointly develop articles which each town would include in the next Town Meeting Warrant.

Your Selectmen fully realize that the residents of the North Bennington area are entitled to assistance and they further realize that this is a growing area of the town. However, the Selectmen think it most unfortunate that there was no opportunity to review and develop alternate solutions and that both towns are now involved in the legal process.

Explanation of TRA Program (State Road Aid)

The state TRA Road Betterment Program has been in existence for a long, long time and basically provides that the town will appropriate a modest amount and the state will then appropriate an amount which is approximately six to seven times larger than the town appropriation. The amounts to be appropriated by the town and to be furnished by the state are decided upon by the state and have increased very little over the years. In fact, the total amount available for 1975 is approximately 10 percent more than was available in 1965. The sum available will be slightly less than \$2500. It used to be that a portion of one of our dirt roads could be upgraded with such a sum, but now with the higher road specifications established by the state and where the state must supervise the program and bring in state equipment, it is almost impractical to attempt an annual program. The TRA funds can be carried over for one year and the combined two year amount available will do something useful.

There is an alternate program available which is becoming more and more the only practical way to approach this problem and that is to undertake what is known as an accelerated program. This program merely consists of obtaining authority from the town to borrow ahead for five or ten years so that the annual TRA amounts available can and will be used to repay the loan. The total sum, of course, is available immediately and permits the undertaking of a major project. However, the escalation of road construction costs and stiffer road specifications make even such an accelerated program inadequate to meet the necessary upgrading of the North Bennington Road.

The current status of our TRA fund is that the major portion of the 1974 fund has been carried forward to 1975. With the exception of the surfacing of the Edwards Subdivision, which was committed to as a TRA Program by the Board of Selectmen many years ago when the Board developed with the developer an agreed-upon program for the roads and the addition of town water, the TRA funds have been devoted to the North Bennington area over the past ten years.

The Board of Selectmen have obtained from the state road engineers a formal estimate of the cost of completing a TRA program for those sections of the North Bennington Road as yet undone. There are basically two sections: The first is from the cement bridge to the TRA section of road at the new landfill facility and the second section is from the end of the TRA road section at the landfill facility to the area near the so-called Iron Bridge. The state estimates that to widen, drain, ditch

and surface these two areas to meet their specifications would cost \$32,670 for the first section and \$94,810 for the second section — a total of \$127,480. This estimate is based upon having the job done by contract and it is expected that if the town undertook the job directly, working under the supervision of the state engineering personnel, the cost would be substantially less.

Among the various alternatives related to the problem of the Iron Bridge between Antrim and Bennington, the Selectmen feel that consideration should be given to some sort of an accelerated program for at least a portion of this project.

Joint Landfill Facility

At a Special Town Meeting last summer the voters approved the inclusion of Francestown in the Joint Bennington-Antrim Landfill Facility and they will begin using the facility sometime during 1975. In January of 1975 the towns of Bennington and Antrim received the agreed-upon capital payments from Francestown related to their participation. The Selectmen do not plan to recommend further expansion of the facility.

Fire Department

The Fire Department have made splendid progress in the completion of their new building and they expect to have it in service sometime this year. Again the Selectmen are confident that they speak for all Bennington citizens in extending their thanks, appreciation and congratulations on the completion of this tremendous project.

Police Department

Bennington now has a well equipped and well organized small part-time police force. The department is now able to offer broader coverage and protection in a time when the need for such coverage and protection appears to be growing rapidly.

After some initial difficulties, the department, under Chief Bernard Maillette, is a well established organization. A new police cruiser has been acquired and the expected State and Federal reimbursement for a portion of the cost has been received. Chief Maillette served without pay during the year with the understanding that in lieu of such pay the Selectmen would purchase other pieces of equipment that he felt wise and necessary. The State and Federal reimbursement for other expenses such as uniforms and expanded coverage was also received, but not until late January.

The budget proposed for police protection, which has been approved by the Budget Committee and is supported by both the Selectmen and the Budget Committee, is recommended as the minimum to meet present day needs.

Flood Insurance

Bennington shares with all of the other towns up and down the major rivers of the state the need to meet the State and Federal requirements in order that the inhabitants can purchase flood insurance where needed. As the government usually does, while making such programs supposedly voluntary, they have attached such conditions and penalties that no town has much choice except to participate. There are included in the Warrant a group of Warrant items which we and other towns will have to adopt in order to qualify. These Warrant items, prepared by Town Counsel, are the minimum steps which must be taken.

Consideration of Town Warrant Items

It was voted at last Town Meeting that the review and consideration of the Town Warrant be held in the evening. The Board recognizes that this could well be an excellent method of broadening the voter participation in town affairs. However, on some Town Meetings, particularly those involving the presidential primary elections, the legal requirements for the counting of the ballots makes an evening meeting extremely difficult. Therefore, at the recommendation of the Moderator, the Board has inserted an article in the Warrant suggesting that consideration of the Town Warrant be taken up on the Thursday evening immediately following the Tuesday Town Meeting election day. We would hope that this would provide a sound and sensible solution to the problem.

General-Financial

The Selectmen are pleased to note that the Town continues to be in very sound financial condition.

TAX YEAR 1974 SUMMARY INVENTORY OF VALUATION OF THE TOWN OF BENNINGTON IN HILLSBOROUGH COUNTY

REPORT OF POLICE DEPARTMENT

1974 was a very active year for the Bennington Police Department. The new police cruiser, approved at Town Meeting, was delivered in August and immediately placed in service. A full time summer patrol was used for the months of June, July, August and part of September. The summer patrol idea appeared to be a sound one that we intend to continue, hopefully, on an expanded basis.

During the latter part of 1974 a lot of time and effort went into a training program for the less experienced police officers. We now have six fully uniformed and equipped police officers available for duty. Several other less active persons are still available on special occasions or when assistance is otherwise needed. The Chiefs of Frankestown, Greenfield and Hancock are empowered to act as police officers for Bennington in emergency situations. This is a reciprocal agreement between the towns.

The Police Department is trying to provide a twenty-four hour a day — seven day week — police emergency response program. At least one officer is always on standby duty and constantly in communication with the Hillsboro Message Center (464-5333). Police calls for any type of assistance or information should be directed to the above number. The Center will see that your request is relayed to a police officer on a timely basis. It is important that all calls go to the Center and not to the home of the Police Chief or any officer. Each of the police officers take turns on duty assignments and it is only fair that when off duty they should not be receiving police calls.

The crime rate, especially theft, in the area towns is at a very high level. Area business establishments, as well as private homes, are being threatened constantly. The law enforcement group struggle to solve the problem, but our best chance to win this battle would come from greater co-operation from the public. Criminals, when committing criminal acts, are more often than not observed by private citizens. Too often persons are afraid to act or perhaps are not fully alert to what they are seeing. Report immediately (464-5333) any suspicious person or vehicle you might encounter. This is especially true at out of the way places or near unoccupied dwellings. Try to obtain registration numbers on vehicles as well as description of vehicles or persons.

Home owners, especially owners of second homes, should let the police know their general use schedules. If we know your house is unoccupied, we will check more often. A good suggestion would be to prepare a detailed listing and description of all personal property left inside and in out buildings. Color photos of interior rooms from more than one angle, with close ups of valuables or unusual items, will be very helpful. Record serial numbers on your list if such are available. Marking your personal property, perhaps with your social security number, would be very helpful in identification of stolen property found in the possession of criminals. Alarm systems are available at modest costs that can be tied into the Message Center. We have some information on such systems if anyone is interested.

Chief of Police

TOWN HALL REPORT

This year twenty-five more folding chairs have been purchased, as has been done in the last few years. This makes a total of one hundred and fifty-three (153) chairs.

The ladies room and ticket room have been painted. All cracked or broken window glass have been replaced. Plywood doors have been installed at the entrance to the ticket room and the entrance to the main hall. This was done at the request of the Selectmen to prevent possible injury to all kinds of recreation. Heavy mesh screening was installed over the two windows on the stage — also to prevent injury.

I appreciate the cooperation of the townspeople and also the Selectmen.

Respectfully submitted,
Dorothy M. Traxler

FIRE WARDENS REPORT

In case of any trouble, call:

Village Spa — 588-2153

Donald Taylor — 588-2394 (nights), 588-2182 (days)

Donald Clough — 588-6356

Rodney LaClair — 588-2571

To report a fire through Mutual Aid in Keene:

1. Dial your access number, then 352-1100

2. When Dispatch Center answers:

A. Give your name

B. Location of the fire

C. Description of the fire

Last year we answered nine calls:

1 false alarm

1 house fire

1 paper mill fire

1 brush fire

Mutual Aid Calls:

1 Hancock

3 Antrim

1 Frankestown

We purchased the Serviv Air Pack and spare tank that were appropriated for last year. We now have two for each truck.

Some of the members attended a Serviv Air School and a pump school in Antrim this year.

The firemen donated their pay again this year, which was \$684.00, and it goes into the Building Fund.

Some of the firemen have done a lot of work in the new fire station this year. If anyone would like to stop in and see what has been done, they are welcome. There usually is someone at the station Thursday nights and weekends. We are hoping that we will be moving into the new fire station this year.

Respectfully submitted,

Donald Taylor, Chief

Donald Clough, First Assistant

Rodney LaClair, Second Assistant

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

All open burning when the ground is not covered with snow is controlled by the Town Forest Fire Warden in cooperation with the New Hampshire Forest Fire Service. Anyone wishing to kindle a fire out-of-doors when the ground is not covered with snow must have a written permit signed by the Town Forest Fire Warden. If the fire is to be kindled on land not owned by the person kindling the fire then he must have the permission of the landowner. No outdoor fires can be kindled between 9 A.M. and 5 P.M. unless it is raining, without the additional approval of the District Forest Fire Chief.

The 1974 forest fire season was one of the worst in the past two decades. Woodlands in central and southern New Hampshire became so dry in mid August that the Governor and Council, upon the recommendation of the State Forester, enacted a partial woodlands closure in Sullivan, Cheshire, Hillsborough, Merrimack and Belknap Counties and a complete woodlands closure in Strafford and Rockingham Counties plus the Towns of Barnstead, Gilmanton and Alton in Belknap County. Through the excellent corporation of the citizens of our State no major forest fire occurred at any time during the year.

ROAD AGENT REPORT

I would like to extend my thanks to the townspeople for giving me their votes of confidence last March. I have tried to improve the roads to the best of my ability and to do the necessary work as far as my appropriation of money would allow.

I appreciate the cooperation given me by the townspeople and look forward to their continued support.

Respectfully submitted,
David C. Traxler

BENNINGTON RECREATION ASSOCIATION

Each year the Bennington Recreation Association provides a variety of activities for the youth of the town. After having read our report we hope you will agree that 1974 was a very successful year.

With winter, being what it was, we were lucky to manage one skating party during February vacation. Then we moved indoors to have a movie, "Rascal," for our next months activity.

We sponsored the Boston Children's Theatre's performance of the "Wizard of Oz" to the delight of over 200 spectators.

The summer program proved to be one of the best yet thanks to Doug Hicks — Recreation Director and Kathy Keating — Lifeguard. A few highlights from the program were a trip to Canobie Lake Park, Ye Olde Bennington Gold Rush, a performance of the Little Red Wagon, a pet show, crafts and sports culminating with an Olympic Day and family picnic for all.

With the aid of the small fee charged for swimming lessons we were able to purchase some much needed beach equipment this year.

"Summer Fun" was the theme for our annual Old Home Day. A parade with many creative floats, games and races, the crowning of "Little Miss Bennington", a church supper, and beano were enjoyed by many.

Our Halloween Party got a very successful start with all the ghosts and goblins assembling for a parade and then on to the Haunted House for fun and games.

The Christmas season brought the usual festivities including caroling, the Community Christmas Card and a party with entertainment from Pierce School children.

For the adults we sponsored a Red Cross First Aid Course. We also continue to support our Craftsreation group.

It has been a good year thanks to the cooperation of the townspeople and we hope you will continue to support our group.

REPORT OF THE PLANNING BOARD

No new major subdivisions were proposed during 1974 and there were only six smaller subdivisions which were approved.

The major project which has occupied the Planning Board has been a survey of the various homes in the center of town in an effort to determine the actual status of the pollution treatment problem as well as an effort to determine the range of possible solutions. The survey has been completed and the Board wishes to express its appreciation to all of those who assisted in an attempt to develop full and accurate information. The Board has determined that there are approximately twenty households in the central part of town that do not have nor apparently could not feasibly have individual septic tank systems to meet the pollution problems. Other than this limited number of homes, it is the Board's conclusion that it would be feasible for other households to meet their own requirements by septic tank systems.

On the presumption that a minimum collection and disposal system would be an absolute requirement, they have explored the possibility of a small collection system which would be handled by a large septic tank and aeration chambers system. They have also located a piece of land which would appear to be suitable and which is near enough to the central area of town to be practical.

Preliminary reviews with the State authorities indicate that they did feel that this could well be a practical and economical solution to the town's problem. However, it seems to be pretty clearly established at this time that the Federal government will not approve or at a minimum will raise most serious objections to this approach to the problem. This would mean that the project would not qualify for State and Federal Aid and this can be a very major consideration in our future planning.

The board has also been informed that current regulations require a much more substantial and professional in-depth planning study before any sewage project can be considered by the State and Federal government. Apparently the survey made by Anderson-Nichols some years ago would no longer qualify as meeting their requirements.

It is uncertain as to whether EPA will accept a sewage collection system for the town which was based upon the absolute minimum requirements. When the Board and the Selectmen explored this problem unofficially in Concord, they were told that our Congressman, James Cleveland, might be of assistance on this problem but that experience indicates that a concrete proposal usually must be available in order that he would intervene with the Federal authorities. The Town of Antrim apparently is planning to proceed with their own collection and treatment system and the option of joining that system would apparently be available for negotiation. The State authorities also indicated that in view of the available funds it is anticipated that the priority on the enforcement of the town's anti-pollution order is still fairly low. In the meantime, the Board will try to broaden its study, recognizing that the problem will have to be solved.

The Board of Selectmen and the Planning Board jointly are recommending to the Town Meeting a series of articles prepared by Town Counsel which will be required in order to qualify for the Federal government's Flood Insurance Program. This was originally a voluntary program for those communities who wished to join, but the most recent legislation made it mandatory in the sense that not qualifying for the program would represent substantial financial hardship to many members of the community.

The program basically provides that if the town will establish the necessary

qualifications and limitations related to building the flood plain area, very inexpensive flood insurance can be purchased. However, they have further provided that if towns do not qualify, then the town is not eligible for any Federal Aid and, in addition, no property within the presently designated flood plain area can, after July 1, 1975, be available for any mortgage loan from any bank or savings and loan association. The "hooker" here is that until the town has qualified for the program and the Federal government has established by survey, etc., the actual flood prone areas in the town, a tentative definition of that zone will govern. That tentative definition, as the town has received it, appears to be nothing more or less than a strip on both sides of the river all the way through the town. This strip would include many of the houses in the center area of the town which are on high bluffs and not really subject to flood hazard. However, until the town has taken the necessary steps to qualify for the program, the Federal government will not begin an actual survey of the true flood prone areas. To qualify the town must pass certain authorizing votes and provide the necessary mechanisms for a building code which would be limited to future construction within the flood prone area. The townspeople will probably join the Planning Board and the Selectmen feeling that this is a very unreasonable way to do business, but they also will probably note that all of the towns in the area on the Contoocook River have felt it necessary to qualify for the program.

THE BENNINGTON IMPROVEMENT ASSOCIATION

The B.I.A. has had a very busy year. The dream of flowers in town came true and we will try to do the same this coming year. Our candy sale and donut sale were a success, thanks to all the volunteer candy and donut makers.

Verney Park near the Waterfall was kept mowed and clean with Harry and his helpers.

Our part in the Home Day celebration was a welcome way to tell the community of our plans for the many years ahead. Maps of the town are available upon request.

The Recreation Dept. gave us permission to help them with their "Park Project". Clearing and mowing has been done. The Fire Dept. will take care of burning the brush that was cut and piled by children and adults alike. We think there will be a great fishing spot now. We need between \$300-\$400 to fill the area before we can proceed with more children's facilities.

We would like to sponsor and help planting trees on our Main Street. We have some money and will be looking into costs of such a program this Spring. Anyone interested in participating please call Barbara Willis at 588-6890.

The Cub Scouts picked up bottles and cans from along side the roads with the help of adults with trucks to make our Clean Up day a success. Our year closed with Mr. and Mrs. Carlton Pope presenting us with a Community Christmas Tree. Again volunteers helped cut, truck and erect out 18 ft. tree. Through a special fund the lights were purchased. Others gave lights, time and electricity. We will do this again next year if possible.

The B.I.A. wants to thank everyone that helped in anyway our programs. Our ideas are many and any thoughts or help is so appreciated.

SAMPLE RESOLUTION TO BE USED WHEN APPLYING FOR FLOOD INSURANCE

WHEREAS, certain areas of Bennington are subject to periodic flooding from streams and rivers, causing serious damages to properties within these areas; and

WHEREAS, relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of this Town Meeting to require the recognition and evaluation of flood hazards in all official actions relating to land use in the flood plain areas having special flood hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to N.H. RSA Chapter 31, 36, 156, 156A,

NOW, THEREFORE, BE IT RESOLVED, that this Town Meeting hereby:

1. Assures the Federal Insurance Administration that it intends to enact and maintain in force for those areas having defined flood hazards, adequate land use and control measures with effective enforcement provisions consistent with the Criteria set forth in Section 1910 of the National Flood Insurance Program Regulations; and

2. Vests the Planning Board with the responsibility, authority, and means to:

(a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites.

(b) Provide such information as the Administrator may request concerning present uses and occupancy of the flood plain.

(c) Cooperate with Federal, State, and local agencies and private firms which undertake to study, survey, map, and identify flood plain or mudslide areas, and cooperate with neighboring communities with respect to management of adjoining flood plain in order to prevent aggravation of existing hazards.

(d) Submit on the anniversary date of the community's initial eligibility an annual report to the Administrator on the progress made during the past year within the community in the development and implementation of flood plain management measures.

3. Appoints the Building Inspector to maintain for public inspection and to furnish upon request a record of elevations (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures located in the special flood hazard areas. If the lowest floor is below grade on one or more sides, the elevation of the floor immediately above must also be recorded.

4. Intends to take such other official action within its powers as may be reasonably necessary to carry out the objectives of the program.

RECYCLING STUDY COMMITTEE TO THE TOWN OF BENNINGTON

Recycling is best described as saving — rather than wasting — the materials which we normally consume in our everyday lives. Paper, glass, metal and rubber are common examples. Such a conservation practice is really a modern day example of the old-fashioned Yankee virtue of thrift. The advantages of such thrift are two-fold. First, any community which recycles its waste is performing a vital service in that America's reserves of many natural resources are now dwindling, and therefore the conservation of all reusable materials is in the national interest. Second, our "garbage," like any other resource, has a definite cash value; its sale could represent a direct benefit to the people of Bennington.

How much are the "waste materials" of our town worth? (Let's also consider Antrim and Frankestown, since we share a landfill facility with them.) The following chart gives an idea:

**An Estimate of the value of recyclable resources
for the towns of Bennington, Antrim, and Frankestown**

	Paper	Glass	Metal	Gross	Trans- portation	
Benn.	\$5754	\$1370	\$1233	\$8357	\$1535	\$6821
Ant.	\$20370	\$4850	\$4365	\$29585	\$5436	\$24148
Fran.	\$5376	\$1280	\$1152	\$7808	\$1434	\$6373
Total	\$31500	\$7500	\$6750	\$45750	\$8405	\$37342

This estimate is based on tons per year of each item computed from the 1975 figures for each town in the Maguire Report, "Regional Solid Waste Management Study — Phase II" and the "Municipal Waste Stream Components, Percentages by Weight," Table VIa of the Planning Manual for Solid Waste Disposal Alternatives, Cooperative Extension Service. These figures are from Vermont State averages.

Dollars per year were figured by multiplying tons per year by \$20.00. This assumes that all of each category will be recycled. It does not allow for the higher profit available if paper is separated into categories or baled. It computes all metal as if it were cans.

Transportation costs were figured by adding the glass and metal weights (paper is usually picked up in this area) and allowing \$0.59 for each 100 lbs. — which is accurate for glass and probably close for metal if it is sent by commercial truck. The net total has only the transportation costs deducted and does not allow for costs of a building, employees, or equipment.

Is it feasible for Bennington, in conjunction with Antrim and Frankestown to profitably recycle these materials? The best answer to that question comes from a study of the recycling experience of the town of Nottingham, N.H. That town has a year-round population of approx. 1500; summer residents bring the total to around 4500. They recycle everything they can, save many things for future sale, and incinerate the rest (we could simply bury our leftovers, just as we now do with all refuse). Thanks to a very substantial private donation, Nottingham was able to "begin" with a complete operation: nothing but the best modern equipment and an expensively constructed physical plant, plus the incinerator which we don't need. Cost? \$50,000 for one town. Their operating budget for 1974 was \$10,000, a figure which they have met and indeed made a \$2500 return on, according to Selectman

Peter Witham, as quoted in the N.H. Times, Dec. 31, 1974. Equally important, they obtained a \$15,000 grant from the state which they plan to use for capital improvements.

It is difficult if not impossible to estimate the initial cost of setting up a recycling center at the present Bennington landfill. For one thing, any successful effort would certainly require the participation of Antrim, and better yet, Frankestown too. Their willingness to participate and the extent of such participation is unknown; coordinating the efforts and responsibilities of the three towns is a delicate political problem. Secondly, it must be decided how much of a program to begin with initially. Obviously, it would be nice to begin with a complete operation a la Nottingham; yet this might not be possible. An alternative would be to begin by recycling one or more basic materials, for example paper or metal or glass, and add others later as the system develops. Whatever the outcome of these decisions, it is clear that some sort of shelter would be necessary . . . a relatively inexpensive suggestion is that of a pole barn type of structure with metal siding. Any equipment requirements will depend on the type and size of the initial operation desired. Bearing in mind that this amounts to a considerable degree of uncertainty, it is nevertheless probable that an excellent beginning operation could be established for a capital investment of one-third to one-fourth the cost of the Nottingham plant, i.e. somewhere around \$15,000. How much of this could be financed through either state or federal sources and how much would have to be raised by the three towns is not known, although the Nottingham experience suggests that there is a good possibility of getting outside help. On a yearly basis, it is safe to assume that we could operate fairly close to the Nottingham budget, if 100 percent recycling was set up.

The town should be aware of the following conclusion which has been reached by essentially all communities now engaged in recycling their refuse: the success of such an operation depends absolutely on the separation of wastes in the home according to the type of material; for example: paper, glass bottles, and metal cans must be kept separate before being brought to a town or regional recycling center. It is not economically practical to pay someone to sift through everyone's garbage and try to sort it out later. Furthermore, it has been the experience of other towns that such "separation in the home" is ineffective unless guaranteed for local ordinance.

What about the future of recycling? We believe the following considerations provide an answer.

1.) The nation's reserves of natural resources will continue to be in ever shorter supply. Therefore the value of recycled goods should increase as business and industry necessarily rely more and more heavily on them.

2.) As the need for recycled materials increases, additional technology will be developed to reuse material more effectively. This process is already taking place.

3.) Nottingham not only ran their recycling operation profitably, they did so in the midst of a severe, widespread recession. It is reasonable to assume that the "business" of recycling will pick up as the economy does.

5.) It is quite probable that the continuing scarcity of resources will result in mandatory recycling. Lobbying efforts on both the state and national levels now

4.) Government help appears likely on at least two fronts: a.) an easing of current shipping regulations which place recycled materials at a competitive disadvantage, and b.) direct aid to local recycling efforts.

urge direct governmental action to encourage if not require that we all save any usable materials instead of throwing them away forever. It is better and cheaper to begin recycling now on our own initiative.

It is the feeling of this committee that recycling has proven itself to be both in the national interest as well as economically sound. It is our hope that the communities which now share the Bennington Landfill will see the value in the materials they discard and work together to establish and share a Bennington Recycling Center. We would suggest that the town recommend the continuance of this committee and authorize and encourage the committee to expand its work to include suitable representatives of the other two towns participating in the landfill facility with a view to developing broadly based recommendations for possible future action.

Frank Cordelle
Herbert Flanders
Virginia M. Young
Theodore Aucella, Selectman
(ex officio member)

Marriages Registered in the Town of Bennington, N. H., for the Year Ending December 31, 1974
